RELATION OF PROPOSED CHANGE TO THE CITY'S COMPREHENSIVE PLAN

CONSISTENCY WITH PLAN EL PASO	DOES IT COMPLY?
<u>G-4 – Suburban:</u> This sector applies to modern single-use residential subdivisions and office parks, large schools and parks, and suburban shopping centers. This sector is generally stable but would benefit from strategic suburban retrofits to supplement the limited housing stock and add missing civic and commercial uses.	Yes, through the proposed development site plan the property owner is introducing a new commercial use for an under developed parcel.
ZONING DISTRICT	DOES IT COMPLY?
<u>C-4/c (Commercial/conditions) :</u> Commercial uses intended to serve the entire City to permit heavy commercial uses characterized by automotive and light warehousing. Provide a transition from general business areas to industrial and manufacturing uses, and to accommodate major locations of commerce, service and employment activities. Within the Central Business District, more intensive commercial uses are allowed, the predominant of which are retail trade and service uses, providing less restrictive height and area regulations.	Yes, the proposed development is proposing a new restaurant and the use is permissible in the C-4 (Commercial) district.
POLICY	DOES IT COMPLY?
<u>2.2.5:</u> The design of new neighborhoods and additions to existing neighborhoods should strive for a balance of housing, jobs, shopping, recreation, and civic uses to avoid unnecessary travel and reduce infrastructure and public services costs.	Yes, the applicant is the proposing the redevelopment of a vacant site. The parcel has potential to introduce new uses, new employment, and a variety of activities.

SUITABILITY OF SITE FOR USES UNDER CURRENT ZONING: The lot is 193.60 ft. by 241.83 ft. (1.07 acres). The proposed development site proposes a 5,400 sq. ft. building to allow for a minor motor vehicle repair. Upon the development of the site, all other dimensional standards are being met as required under the C-4 (Commercial) zoning district.

CONSISTENCY WITH INTENT AND PURPOSE OF THE ZONING ORDINANCE: The intent of the Zoning Ordinance is to provide for locations for the most intensive commercial uses intended to serve the entire city. It is intended that the district regulations permit heavy commercial uses characterized by automotive and light warehousing. The regulations of the districts are intended to provide a transition from general business areas to industrial and manufacturing uses, and to accommodate major locations of commerce, service and employment activities. Within the central business district, more intensive commercial uses are allowed, the predominant of which are retail trade and service uses, providing less restrictive height and area regulations.

ADEQUACY OF PUBLIC FACILITIES AND SERVICES: Within the Tierra De Mi Padre subdivision there is an existing eight (8) inch diameter water main. This main is located inside a twenty-five (25) foot wide PSB Easement situated west of the common boundary line pertaining to Tierra Del Este Unit Eighteen (18)

subdivision and Tierra De Mi Padre Subdivision. This main is aligned in a north-to-south direction. From this main, the Developer of 3620 Joe Battle Boulevard will extend a proposed eight (8) inch diameter main within his/her property along a proposed PSB Easement.

EFFECT UPON THE NATURAL ENVIRONMENT: Subject property does not involve greenfield/ environmentally sensitive land or arroyo disturbance.

COMMENT FROM THE PUBLIC: None received; Notices are not required per Section 20.04.520 Notice.

STAFF COMMENTS: No objections to proposed DSP. No reviewing departments had any negative comments. Applicant is responsible for obtaining all applicable permits and approvals prior to any construction or change in occupancy.

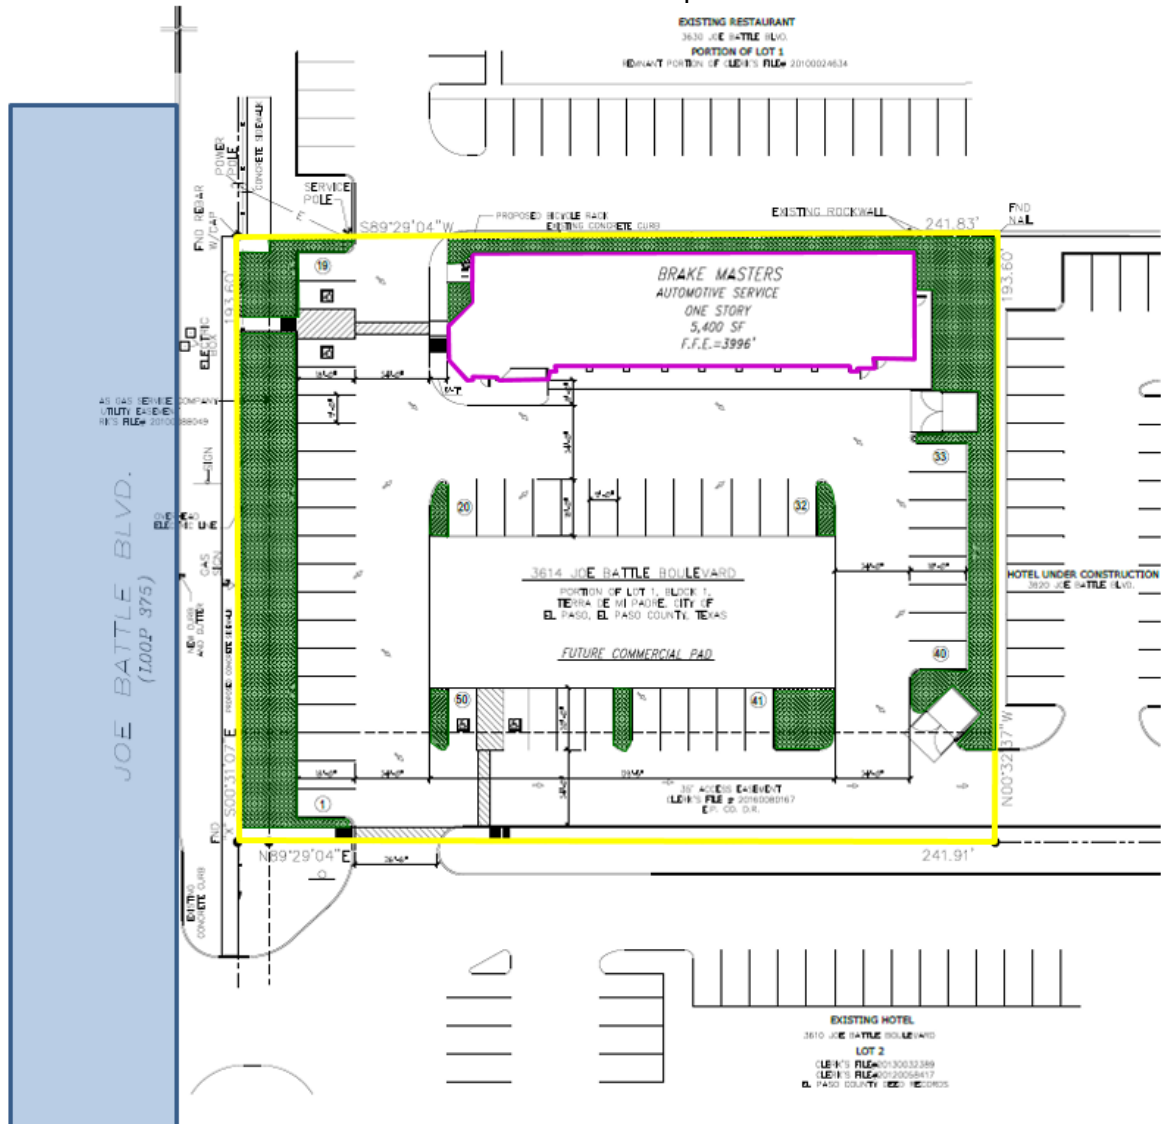

OTHER APPLICABLE FACTORS: Approval of the site plans by CPC constitutes a determination that the applicant is in compliance with the minimum provisions. Along Joe Battle Boulevard fronting the subject property there are no existing water mains.

Within the Tierra De Mi Padre subdivision there is an existing eight (8) inch diameter water main. This main is located inside a twenty-five (25) foot wide PSB Easement situated west of the common boundary line pertaining to Tierra Del Este Unit Eighteen (18) subdivision and Tierra De Mi Padre Subdivision.
